Hello friends,

I'd like to introduce crochet symbol style that might easier to follow the pattern than traditional English style. So, in this pattern description have two version.
First Line is Crochet symbol version. Gray Line is traditional English version.

For example in Row 3

Row 3: [X V] 5 times -(15)

← this is crochet symbol version

= [sc, 2sc in next stitch] 5 times -(15)

← this is English pattern

And I need your comment! Please feel free to post comment and suggestion at
